Bohdan Vivchar

WEB DEVELOPER

Summary

I'm looking to join a company that's on the rise, where I can grow right alongside the team. I love working with others and building web apps that actually reach people, thousands of them. Keeping up with the latest in web development excites me, and I'm aiming to become a real pro in the field. I like a good challenge, and I keep pushing myself to get better every day.

Work Experience

Front-end developer - Full-time

Slovakia

QORPO s.r.o | Sep 2024 - now

- Created and maintained multiple web applications used in production.
- Implemented new features and improvements across existing projects.
- Configured and set up projects, ensuring scalability and maintainability.
- Collaborated closely with backend developers to integrate APIs and business logic.
- Worked with designers to translate UI/UX designs into responsive interfaces.
- Communicated with the marketing team to implement tracking, landing pages, and promotional features.
- Improved code quality through refactoring and following best frontend practices.

Front-end developer - freelance

Slovakia

Nestify | Apr 2024 - Aug 2024

- Developed a web application for renting apartments, houses, and commercial buildings.
- Implemented geocoding and map integration to enable location-based property search.
- Built interactive map features to improve user navigation and experience.
- Integrated AI-powered functionality to help customers find the most suitable offers based on their preferences.

Customer Service Representative - Full-time

Ukraine

ZONE3000(Namecheap) | Jul 2021 - Nov 2021

- Assisted customers with hosting services, domain registration, and account management.
- Resolved technical and service-related issues via chat and ticket systems.
- Provided clear explanations and step-by-step guidance to non-technical users.
- Escalated complex issues to technical teams and followed up to ensure resolution, based on their preferences.

Education

IT School GoIT | Feb 2023 - Jan 2024

Fullstack Developer (React, Node.js)

SkillUp | Jan 2022 - Apr 2022

Web basics, SQL, QA/QC
